## Summary

PERSONALITY: Collaborative, proactive, teachable, and competitive

- Agile software development
- CI/ CD
- Gang of four design patterns
- Ability to prioritize and manage multiple projects
- Team Player
- Positive results oriented
- Strong interpersonal skills

I am a Full stack JavaScript Developer with strong emphasis on Back-end server development. Recently developed Websites in Full Stack MERN Development, with newly developed skills in JavaScript, CSS, React.js, and responsive web design. Known for implementing new technologies and excelling at problem solving to create mobile-first designed web applications. Excited to use my new skills in the future as a part of a quality-driven team in order to build the next generation of innovative web applications.

## Experience

### Full Stack Engineer

Rumble

Apr 2020 - Aug 2022 (2 years 5 months)

- Developed two project features to rebuild the front-end of the online store and deployed two weeks ahead of schedule by executing disciplined development practices.
- Implemented user interface by using the React JS, and Redux for SPA development and rendered server-side with Next.js for improving page loading speed.
- Implemented dashboard and admin website using Bootstrap, Chart.js and Google analytics.
- Implemented google authentication, twitter authentication
- Worked with Jest unit test framework to write unit tests for JavaScript.

### Senior Frontend Developer

Textkernel

Mar 2019 - Apr 2020 (1 year 2 months)

- \* Created a CMS for managing company's invoices and employees using React and GraphQL and Node.js.
- \* Developed a CMS for concurrent uploading and managing of video files such as movies or tv show episodes, daily saving hours of users' time.
- \* Created a custom responsive drag and drop calendar/note/appointment system in React, saving users from using multiple applications.
- \* Developed a mobile app with React Native,

### Senior React and React Native Developer

## Bereskin & Parr LLP

Jun 2017 - Mar 2019 (1 year 10 months)

- \* Developed a mobile app with React Native, that features a five-year plan tool for a startup bank. It takes into account all the user's financial aspects and decides which goals they can reach in the coming years.
- \* Integrated Firebase to host the application since it didn't need a back end.
- \* Enhanced the app with a chart (that I developed myself) that shows all expenses, debt, and goals of the user through the next five years.

## Web Developer

Bereskin & Parr LLP

Aug 2016 - Jun 2017 (11 months)

- \* Created, installed, and managed WordPress sites.
- \* Provided technical assistance for the projects.
- \* Customized an advanced WordPress template, implementing a grid design for the articles.
- \* Tweaked a PHP-based website for a Spanish perfume company, solving some problems and programming some new features.

## Software Engineer

Quantox Technology

Jan 2016 - Jul 2016 (7 months)

- \* Implemented html pages/templates using front end frameworks
- \* Was responsible for end-to-end development of individual modules
- \* Implemented complex business and system logic
- \* Improved front-end of Car Selling Website
- \* Revamped landing page - increased visitor clicks by 37%
